SeatChoice.com founder Robert Iles said: “Our customers are finding some fantastic ticket deals for London’s best West End shows and plays. We’ve found thirteen shows with seats discounted by £20.00 or more by certain ticket suppliers so if you know where to look you can grab yourself a real bargain.

“The problem for consumers of course is in knowing which ticket suppliers have the best deals for the show you want to see on the date you want to go. Fortunately, SeatChoice.com does all the hard work by searching the market, checking real-time availability and comparing prices from over 20 different ticket outlets. If your New Year’s resolution was to save money a good way to start is by shopping around for the best theatre ticket deals rather than paying the full face value.”

SeatChoice.com have recently added some useful tools to help consumers get the right tickets at the best price. A selection of graphs for each show or event display information such as the volume of searches for tickets to individual shows and the dates when there has been most demand, the success rate for ticket searches to performances by date and information indicating maximum and minimum ticket prices and booking fees.

Using this information, theatregoers can identify on which dates they are most likely to find tickets available and which dates are most likely to return results with discounted ticket prices and low booking fees. Visitors to the site can see this valuable information for performances 14 days ahead whilst registered SeatChoice.com customers get to look 28 days ahead.
